

Making Prophetic Speeches

1. Explain that the children are each going to have the opportunity to speak as a prophet to the rest of group.
2. Talk with the children about issues prophets might address today, such as homelessness, violence, or taking care of the environment.

Give the children time to write their speeches.

3. When everyone is finished, provide time for each child to share a speech.
4. Be sure to affirm every child's speech.
