

Setting-up Prayer Partners

1. Explain to the children that they are going to have a prayer partner, someone who is in their class.
2. Tell them that you would like them to pray for their prayer partners for a specific time (one week, etc.).
3. Then randomly assign each child a partner.
4. You may have to remind the children to prayer for their partners. Or you can provide time for the children to pray for their partners in class.
