

## Celebrate God's Promise

*Materials needed: large paper plates, colored (if possible, have all colors of the rainbow represented) ribbons or crepe paper or construction paper cut into 9" x 1" strips, glue, and crayons*

1. Instruct the children to draw themselves in the center of the paper plate.
2. Glue one strip of each color to the edge of the paper plate leaving a space where the plate can be held.

*If the weather permits, the children can take their rainbows outside and wave them above their heads.*

*Rainy day? No problem! Play some music and dance around the room waving your very own rainbow.*
